- Beaded cuff
- Latex-free and powder-free
- 9.5" & 12" length
- AQL¹ = 1.5

Take the Sterling Glove Challenge at www.kimtech.com/greenproject

- Better performance
 - Better for the environment
 - Better value

KIMTECH*

BRAND

Better Performance

The Protection of Nitrile

Our manufacturing process boosts the tensile strength of nitrile - the force required to break through the glove - to increase its already superior barrier protection qualities.

The Sensitivity of Latex

The process also allows a reduction in glove thickness, which means less force is required to stretch the material. That provides a latex-free glove with the dexterity and sensitivity of natural rubber latex.

Features

- Textured fingertips
- 3.5 mil thickness improves tactile sensitivity
- 50% more gloves per case
- Food handling certified
- Latex-free and powder-free
- Tensile Strength = 40 mPa
- AQL¹ = 1.5

¹AQL as defined per ISO 2859-1 for sampling by attributes

Better for the Environment
